Subject: Buildings 727, 782 and 783 Final Survey

The IVC has completed its review of the Contractor's Closeout Radiological Survey Report for Buildings 727, 782 and 783 and concurs with the conclusion reached by the contractor that each survey unit in Buildings 727, 782 and 783 met the applicable DCGLs and that Buildings 727, 782 and 783 should be released from further radiological controls.
